Welcome & Greetings

" Research:
The distance
between an
Idea and its
Realization "

– DAVID SARNOFF

**THE GREATEST
ENEMY OF
KNOWLEDGE IS NOT
IGNORANCE, IT IS
THE ILLUSION OF
KNOWLEDGE.**

Stephen Hawking

Dear Research Scholar,

Welcome to the family of KNOWLEDGE REVIEW-A Research Guidance Institute, situated in Kolkata.

It is our great pleasure to have been able to help you with your advanced & higher studies. We extend our best wishes for your upcoming research journey. We also wish you good luck with your future plans.

We deeply felt regret to hear a statistical information!!! We wish to share the information with all of you. The population of India is 138 Cr (approx) & the population of Switzerland is 87L (approx) as on 2020. Therefore India is 159 times more populated than Switzerland!!! You will be amazed to know that Switzerland has ranked top where as India has got 48th rank on the Global Innovation Index (GII) 2020 among 131 countries. Sadly or may be gladly India has entered the group of top 50 countries for the first time!!!

In this context KNOWLEDGE REVIEW is aiming to create a research-friendly atmosphere for young & motivated research scholars who are willing to do PhD or already enrolled scholars of various Universities whereby you are able to transform your ideas into realization.

FAQs

What is Research?

According to American sociologist Earl Robert Babbie, “Research is a systematic inquiry to describe, explain, predict and control the observed phenomenon.” It involves inductive and deductive methods.

Research is Noble : Not Just a Duty

Research is Life : Not Just a Job

Research

The REASON for Knowledge Research

Research

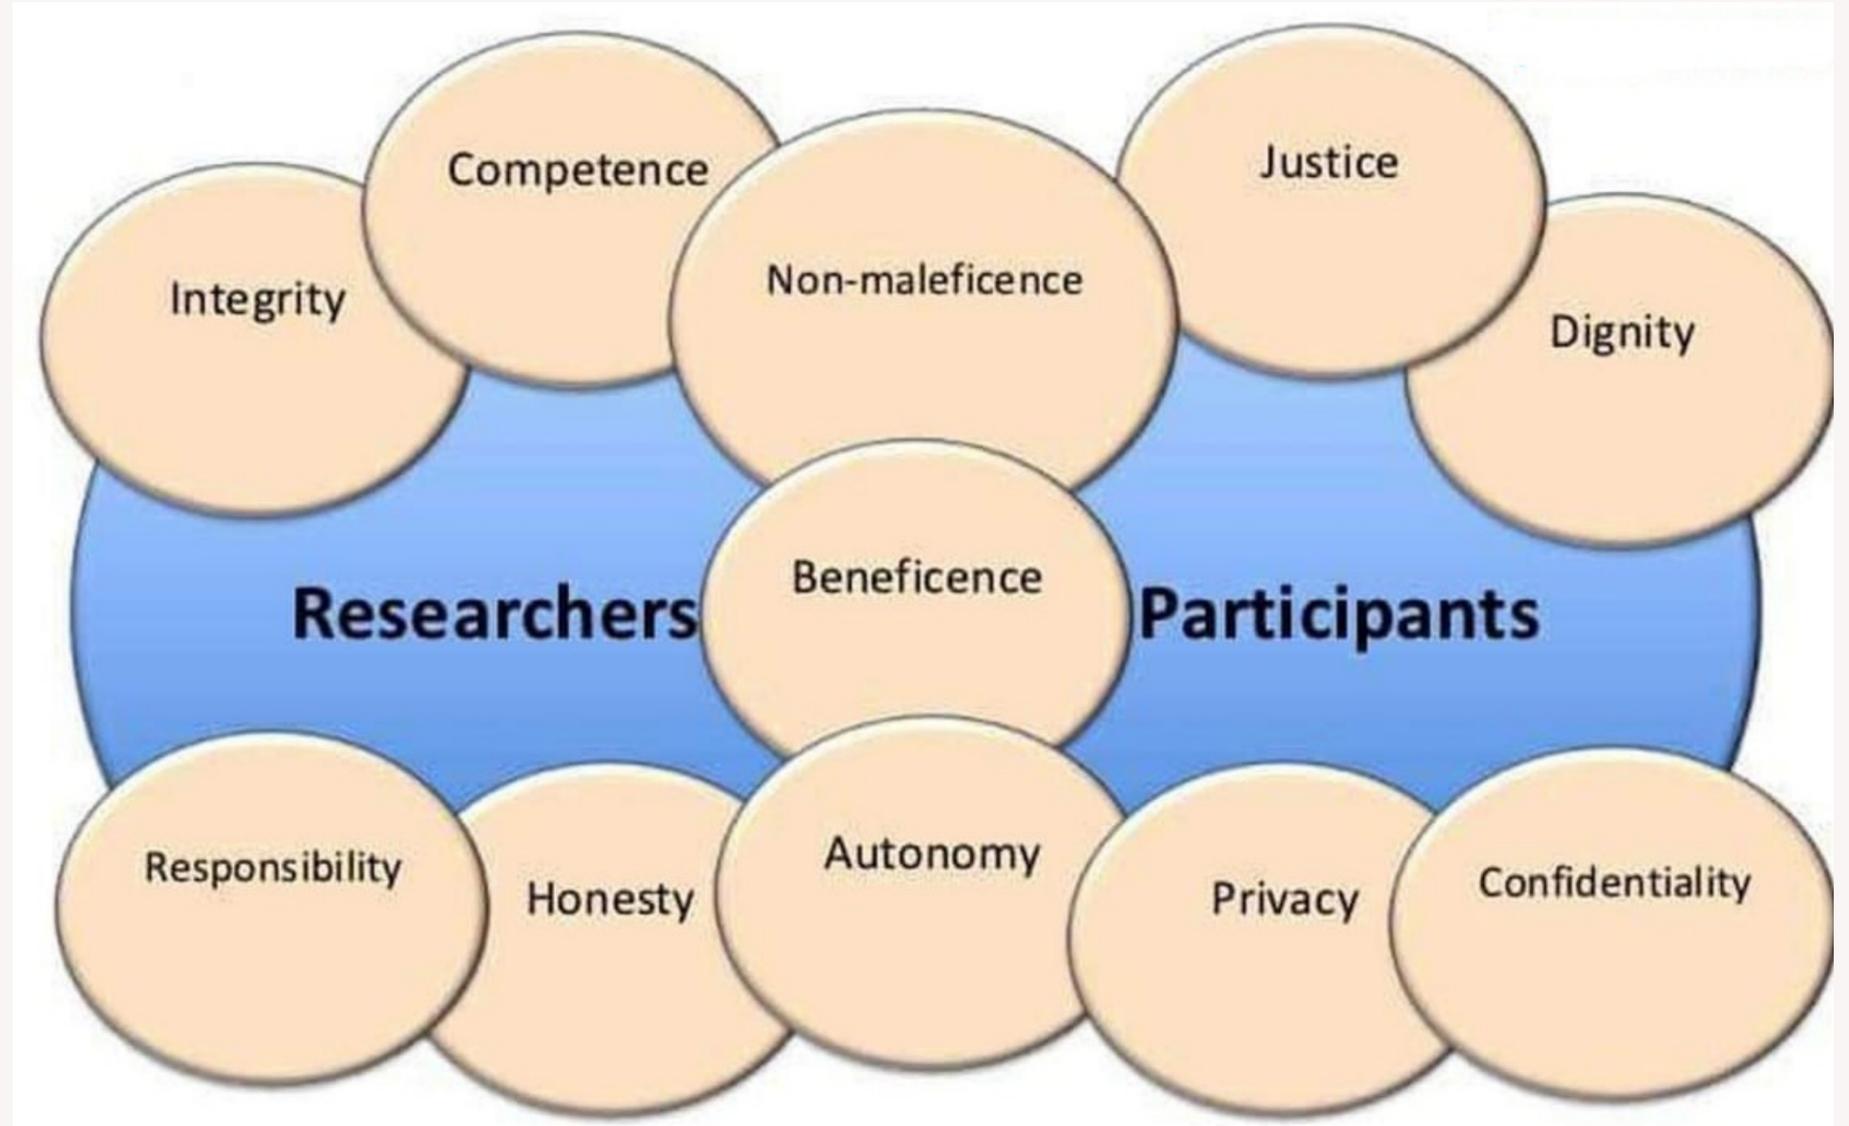

major changes on Earth. We Among other things will
will visit several places of also discuss new measures

02. TOPIC SELECTION HELP

- **Are you craving for a novel, realistic & exclusive Ph.D. Thesis topic?**
- **Do you want to authenticate the uniqueness of your selected topic?**
- **Would you like to sit for a brainstorming session with our experts on topic selection?**

One of the most crucial tasks in PhD research is to select the right topic. Indeed, the researchers have not left any Thesis topic untouched. Consequently it becomes an onerous and also devours gigantic time to come up with a new research idea with an unparallel topic. None but an expertise can help you in choosing a unique subject-oriented PhD topic which must be congruous to your area of research. Your topic needs to be attractive, significant, convenient and unique. If you are struggling to choose a pertinent research topic, don't dither to contact with us. Our expert team will guide in choosing a suitable research topic that is incomparable and excellent. We have a group of sagacious researchers who are well aware of choosing a relevant topic.

03. RESEARCH PROPOSAL WRITING ASSISTANCE

- **Anxious about your PhD research proposal?**
- **Are you looking for a research proposal writing experts?**

A research proposal can be a very hard project, especially when you greatly need approval. A research/dissertation proposal is the most imperative stride towards getting a best evaluation. Writing PhD proposal is not an easy task since it requires enormous time to search the web to get possible topics and to analyze all possible results that will be relevant to your topic. This part of your Thesis should provide the information about the background of your research. Knowing the priority of this, we provide guidance on PhD research proposal writing. All of our research proposal experts hold PhD degree and have crucial experience and qualifications to guide you to write research proposal in the utmost academic standard.

04. SYNOPSIS WRITING ASSISTANCE

- **Are you looking for the guidance from our experts to write the synopsis of your PhD thesis work?**
- **Do you need a synopsis that makes your supervisor to better understand your thinking, and the plan you have about writing your thesis?**
- **Do you want a unique synopsis that will be a great source to receive the approval for your research study?**

Importance of synopsis can't be ignored. Synopsis is almost a blueprint of research which will guide you all through your PhD program. Thus planning of the synopsis needs genuine endeavors from you and your supervisor and this indispensable errand should not be rushed into but rather should be done peacefully and patiently.

Our proficient specialists can help to write an incredible and outstanding research synopsis which will be approved by your supervisors.

05. INTRODUCTION WRITING OF A THESIS

Our experts will help you to find out the way to write an introduction for a thesis.

An introduction is a first chapter of a thesis. It comes after the table of contents. It is a vital and initial part of a thesis. It needs to be organized, clear and succinct. There is no single way to write an introduction that will always work for every topic. To write an introduction of a thesis the followings need to be remembered:

- What your topic is and why it's interesting
- Capture the reader's interest
- Explain the reason for choosing a topic
- Give an overview of your research topic
- Detail how research is going to make a contribution

06. LITERATURE REVIEW WRITING

Struggling to start or finish your literature review?

Literature review is required to examine and assess reference material, understand them, and identify gap areas. In case you're experiencing difficulty with your literature review, approach us for assistance. An excellent literature review can take several days to be completed. Writing a good literature review requires skill. Our experts can assist you in all kinds of literature review including systematic literature review, traditional literature review, narrative literature review, meta-synthesis and meta-analysis etc.

07. RESEARCH GAP INDENTIFICATION

Research gap identification is the key stone to make the foundation of research.

Finding research gap and having the means to develop a comprehensive and sustained study on it can be very rewarding for scholar. When we identify a research gap, we identify a direction for potentially novel and exciting research.

08. RESEARCH OBJECTIVES SETTTING

What are the aims of your research?

Research objectives are the consequences that one scholar aims to achieve by conducting research. Before starting your research journey you should know for what reasons you are doing research over a particular topic. Aims for which you are doing research must be stated clearly. The intensity of your research depends on congruous objectives.

09. RESEARCH METHODOLOGY CLASS

**Do you have profound depth in some research methodology techniques /
Statistics?**

We will leave no stone unturned to make your base firm and proficient. Our didactic experts will be there to bliss you with their titanic knowledge regarding research methodology. Our classes, garnished in a condign order will be highly fruitful for you. Our salubrious research environment will peddle the inclination to become a unique research scholar. Every student will have the opportunity to avail individual counselling and doubt clearing session.

10. DATA COLLECTION

Do you know how the collection of primary data from the respondents with respect to a set of specific questionnaire is a toilsome, time consuming and expensive task?

With the assistance of professional agencies you will collate your required primary data easily. Our efficient experts will be there to remove your all anxieties regarding the authentication of the collected data. After authentication the data will be set for the analysis.

11. DATA ANALYSIS

Do you know which is the most momentous, significant and toughest portion of the whole thesis?

Without a shadow of doubt the Statistical analysis is the most important part of whole thesis. This is the portion where one needs to be circumspect enough. It is the very hub from where copious questions arouse in defending your thesis.

We help in analyzing data in SPSS, Excel, eViews, Polystat, Stata or Matlab. Our specialists will felicitate you with all your statistical analysis needs, whether you are working on a specific area of research or interpreting a large and multifaceted dataset. In every academic course, particularly when it comes to research, performing statistical analysis is of more significant. It can become more demanding if you don't have the competence to use the software packages such as SPSS, Matlab, Excel and Stata. Are you anxious that you don't have the dexterity to perform statistical analysis? If yes, then our statistical analysis pedagogy will be your right choice that provides complete support for your research work.

12. FINDINGS

Knowing its vitality, scholar can get assistance from our experts.

Research finding means any outcome from a research and development activity and includes a new product, improvement and invention in any process, apparatus, machine or technique. There must be relevancy between objectives and findings. Findings always follow the objectives. Initially, Supervisor and External Supervisor generally observe the congruousness between objectives and findings. Dear scholar needs to be circumspect enough about the above.

13. CONCLUSION

In writing apt conclusion, our experts will stand beside you.

The conclusion is the very last part of a thesis. A conclusion is not merely a synopsis of your points or a re-statement of your research problem but a synthesis of pivotal points. The conclusion is made to help the reader comprehend why your research should matter to them after they have finished reading the thesis. For most essays, one well-decorated paragraph is sufficient for a conclusion, although in few cases, a two-or-three paragraph conclusion may be required. Its main purposes are:

- Clearly state the answer to the main research question
- Summarize and reflect on the research

14. LIMITATIONS

We provide the best guidance

It is for sure and quite natural that your research will have some limitations. Throughout the research process it is most important for a scholar to minimize the scope of limitations. It is important to identify and acknowledge the shortcomings of research. Research may have numerous limitations, but scholar needs to discuss only those limitations that directly relate to his/her research problems. One can have limitation but on what basis and how that limitation would be congruous must be evaluated by the scholar.

In this case also we provide the best guidance.

15. FUTURE SCOPES

Scholar can rest his faith on KR

The part “scope for further research” is very much important in every academic study such as a thesis, dissertation or journal paper. The principal purpose of this part is to make the readers conscious of the findings emerging from the study, and shortcomings. The limitations guide for future researchers on a domain that they must consider to save time and avoid repetitive results. In addition to it, this section also provides guidelines to researchers on other dimensions and critical estimation from which the topic can be discovered.

With its importance, one scholar can rest his faith on KR.

16. BIBLIOGRAPHY COMPILATION

Rely on our experts

Bibliography includes all the graphics, texts, data, ideas used in your thesis. So compiling your bibliography is a laborious job and it takes a lot of time. As there are several different formats for bibliographies, choosing an appropriate format for your thesis is a momentous task.

KR provides experts who are proficient and diligent enough regarding the compilation of bibliography and who are meticulous enough to guide novice in compiling the bibliography.

17. TOTAL THESIS FORMATTING

Your Thesis, Our Guidance
